

GROTTO™ i

SUB
WOOFER

STEREO/HOME THEATER SUBWOOFER

COMPACT AND ACCURATE

A powerful 300 watt (900 watt peak) low-distortion, high-reliability amplifier delivers extremely articulate bass without the need for transient-blurring ported or passive radiator enclosures common to many modern subwoofers. A proprietary servo system further ensures that output from Grotto i's 10-inch high-resolution aluminum cone woofer is dramatically free of distortion and provides tight, well defined bass in any system.

<i>Frequency Response</i>	22–120 Hz ± 3dB
<i>Low Pass Filter Frequencies</i>	30, 35, 45, 55, 65, and 80 Hz
<i>High Pass Filter Frequency</i>	70 Hz
<i>25Hz Level Control</i>	±10dB
